A

A line drawing of a car seat headrest. A neck support device is attached to the back of the headrest. The device has a central vertical support and two side supports. A dashed line indicates the neck's position, showing the device is designed to provide support from the side.

$\varnothing 4.65^{+0.05}_{-0.10}$

A line drawing of a long, thin, cylindrical object, possibly a telescope or a stylized pen. It has a circular end cap on the left with three curved lines and a small rectangular base. The object is shown at an angle, with a sharp point on the right end.

Technical drawing of a mechanical part, likely a bracket or support. The part is shown in a side view. The main body is dark gray, and the mounting flange is light gray. The part has a curved top surface and a vertical mounting flange on the right. Dimensions are indicated: a horizontal length of 16.00 and a vertical height of 7.44. A callout points to the top and side surfaces of the main body, stating: SURFACES SHADED TO HAVE MT-1 1020 TEXTURE.
